Misfeasance and Refusal to Adjourn Application in order to Consolidate Related Cases by Legal Representation due to Applicant's Failing Health

Dear Sir,

1. IS it because you are the 2nd Defendant in this case together with the 1st Defendant, The Secretary of State for Justice with the Crown Prosecution being the interested party?
2. You deny me public counter access or appeal process dating back to November 2008. Why?
3. Your predecessor caused the quashing of my £50,000 judgment against Cardiff Prison as he had failed to serve the court papers on the HM Governor despite my payment. Why?
4. Why then was Mr Justice Beatson, yesterday, not given copy of all my correspondence including 12th July 12 letters, re CPS withholding the draft Restraining Order, for both Crown Court trials and re consolidation with 'state a case', under legal representation?
5. Why then was Mr Justice Beatson, yesterday, not given the transcripts, ordered and paid for, for this JR application, long before Mr Justice Sing's 1st June 12 directions?
6. The 19th July 12 Royal Courts of Justice letter (CO/6357/2012) sent to you clearly acknowledges I seek consolidation, as it is only common sense.
7. My helpers in court, on Tuesday, indicate His Lordship never received that letter as he indicated he had been given no previous indication of the need to adjourn.
8. Also my GP 18th July 12 medical report, indicating I need a brain scan as soon as possible, was given to the court before proceedings but did His Lordship receive that either ?
9. I have consulted my computer records for the time between 11th/ 113th July 12 when I drafted letters including those to:
IPCC, Royal Courts of Justice Admin and Criminal Courts, Cardiff Crown Court, Cardiff Magistrates Court, His Honour Judge Ticehurst of Bristol Crown Court and your proposed JR Application judge, Mr Justice Beatson in your very building.
10. I apply for immediate stay in the progress of CO/6370/2012 until CPS disclosure of evidence.
