Dear Sir,

Further to frustrated visits to various AMEs, for revalidation of Class 2 medical, please explain Dr Tallant's refusal to send me any data, whatsoever, as to why he refuses to consider my examination tomorrow.

He states on the phone, at last, 'it is a matter for you', the CAA and yet, for some considerable time now, your replies have been, 'it is a matter for your AME'. Is this a matter for CAA Review Panel?

My local AME has retired unfortunately who knows the truth and the local politics in South Wales.

My visiting Dr Tallant, in September 2013, just prior to my Schneider Trophy Race attempt was to save time traveling back to the west country for another AME.

This has caused an apparent misunderstanding bearing in mind police Dr was sacked over it with both French and Welsh brain scans proving him a blatant liar.

Compliments where compliments are due even your CAA June 2010 Psychiatrists also came to a contrary conclusion to that of the blackmailed police doctor.

Can I have clarification of the situation, please, in the hope proposed alternative action is to be avoided.

Yours faithfully,

Maurice J Kirk BVSc
