General  
detention

#3683 FRANCIS, P. 02/08/2010 16:53

From A/Insp Francis, ISU, Barry - due to the issues surrounding the attempts to interview the dp i have considered other options. The dp is not able to be represented following several attempts at obtaining a solicitor to represent him in custody. Following his decision to be interviewed unrepresented the dp then declared himself in need of an assessment for his fitness to be interviewed due to an ongoing investigation into a brain injury. This was documented on f394 on the log. The assessment is currently being arranged. I propose that, following the assessment, if he is deemed fit, then he is to be reported for summons for the offence which i feel is the most appropriate and expeditious manner in which to deal with the offence. We have 2 witness statements, there are none outstanding and no other lines of enquiry. I will then liaise with the CPS tomorrow prior to raising the summons. I have informed the victim of this course of action. I have also discussed this with Chief Insp Lamerton who accepts my rationale and i have conferred with Insp Patterson (Central Bronze) and outlined this to Insp Clark (Custody Bronze).

General  
detention
