DECISION DE REJET D'UNE DEMANDE D'ASILE

LE DIRECTEUR GENERAL DE L'OFFICE FRANÇAIS DE PROTECTION DES REFUGIES
ET APATRIDES

Vu le code de l'entrée et du séjour des étrangers et du droit d'asile et
notamment ses articles L. 711-1, L. 712-1 et suivants, L. 713-1 et suivants,
L. 721-2, R 721-1, R 723-2 et suivants ;

Vu la demande d'admission au bénéfice de l'asile présentée par

M KIRK

en date du 10/12/2010

DECIDE

La demande d'asile présentée par

M KIRK
Maurice John

est rejetée pour les motifs suivants :

L'intéressé, ressortissant britannique et ancien vétérinaire, invoque une
obstruction volontaire de la part des administrateurs locaux du système
judiciaire britannique, l'empêchant, entre autres, d'obtenir sa réintégration
dans les registres de l'Ordre national des vétérinaires.
Il déclare avoir été l'objet de menaces de mort lors de son arrestation en 2009,
ainsi que d'internements abusifs en service psychiatrique pénitencier. Un
mandat d'arrêt aurait été délivré le 2 novembre 2010 contre lui pour une
agression. Ces démêlés auraient entraîné un retard dans la prise en charge
thérapeutique de divers autres problèmes de santé, en particulier orthopédiques.

Cependant, l'intéressé ne fournit aucun élément, dans ses déclarations confuses
mais détaillées, de nature à établir sérieusement qu'il puisse faire l'objet de
persécutions ou être exposé à des menaces sans pouvoir obtenir de protection
dans son pays d'origine.

Par ailleurs, la Grande-Bretagne, Etat membre de l'Union européenne, peut être
regardée comme respectant les libertés fondamentales ; ce pays dispose notamment
d'un système judiciaire de nature à garantir à ses ressortissants le droit à un
recours effectif en cas d'atteinte à ces libertés. Dès lors, sa demande
apparaît manifestement infondée.

6

En conséquence, sa situation ne relève pas des cas visés aux articles L. 711-1 et L. 712-1 du code susvisé.

APPROXIMATE TRANSLATION OF 30/03/11 REFUSAL

République française,
Ministry of the Interior,
OFPRA

dossier : 2010-12-03992-EU-NHI

The application for asylum by Mr Maurice John KIRK
is rejected for the following reasons:

The applicant, a British subject and former veterinary surgeon, alleges malicious obstruction by local administrators of the British judiciary system thus, among other things, preventing him from being reinstated in the Register of the Royal College of Veterinary Surgeons. He claims to have been threatened with death at the time of an arrest in 2009 and to have been the victim of illegal psychiatric imprisonment. A warrant for his arrest was [apparently] issued on 2nd November 2010 for an alleged assault. These disputes have caused delay in the therapeutic treatment of various other medical problems, in particular orthopaedic.

However, the applicant has provided no element, in his detailed but, nonetheless confused, declarations that could seriously establish that he be the object of persecution or threats without any protection being available in his country of origin.

Moreover, Great-Britain, a member state of the European Union, can be regarded as respecting the fundamental liberties ; it is a country that has a judiciary system intended to guarantee its citizens the right to effective recourse in cases of infringement of these liberties. Hence, his application appears to be manifestly unfounded.

IN THE CARDIFF COUNTY COURT

CASE NO. BS 614159-MC65

CF101741

CF204141

BETWEEN

MAURICE JOHN KIRK

Claimant

and

THE CHIEF CONSTABLE OF THE SOUTH WALES CONSTABULARY

Defendant

NOTE TO THE PARTIES

Mr Kirk asserts that he has been subject to Mappa 3 investigation or supervision.

The relevance, or degree of relevance, of such matters to the present claims is as yet unclear. (i) I am aware that MAPPAs agency arrangements were not introduced until 2001, and that all but 3 of the incidents subject of claim in the present 3 actions antedate 2001. (ii) I do not know from what date Mr Kirk asserts he has been so subject, or whether a date is now known to him in consequence of the Crown Court trial of January 2010. (iii) I am not conversant with whether MAPPAs arrangements go beyond the sharing of police information by the police with others, or perhaps more importantly with whom or with which bodies such sharing would be made. If relevant, as yet unclear, it would raise matters of discovery of any contemporaneous records and there may be issues of law which arise upon that.

I do not know whether the Defendant accepts that he has been so subject. Such may need enquiry, if it is correct that Chinese wall arrangements have been put in place between those representing the Defendant in the present civil actions and the Defendant in its present operational matters.

I invite urgent enquiry by solicitors for the Defendant as to whether it is accepted that Mr Kirk has been subject to MAPPAs arrangements, and if so from what date, so that I can be informed on Tuesday 17th August when hearing Mr Kirk's application of (i) the factual position which they report or assert and (ii) their statement of position in relation to whether any obligation for disclosure arises.

MAPPA INVOLVEMENT JUNE 2009

- The first involvement of the South Wales Psychiatric Service that I am aware of occurred in June 2009, when

TG

(FCMHN) and I were invited at very short notice to a MAPPA

3 meeting regarding Maurice Kirk. It was established that Maurice had been referred to the MAPPA by South Wales Police following discussion with the Independent Advisory Group.

- We were able to establish that, following the circulation of information from the Fixated Threat Unit (following the Highgrove incident), Maurice's GP had referred him to local psychiatric services. Dr Metters had met with Mr Kirk on one occasion and we were able to take his notes along to the MAPPA.

- It was explained that the subject of the MAPPA was deemed to be Level 3 - partly because of the risk of attracting media attention, but also because of the risk he posed to himself and others by his actions. The meeting was informed that Maurice Kirk has a long history with

law enforcement agencies with a number of criminal convictions, together with a large number of civil actions and complaints being instigated against relevant forces. Currently, he has just over a hundred civil actions pending against South Wales Police, focused on a variety of individuals.

- In considering who was at risk, it was established that the South Wales' Police view is that he poses a definite risk to the Chief Constable and her family who all have enhanced protection currently. Also a level of protection currently being provided towards various others (members of South Wales Police, solicitors etc). It was also reviewed that South Wales Police have a firearms response which could mean that the MAPPA subject would be shot if he attempted to make any approach to the Chief Constable. Police spoke about their serious concerns that Mr Kirk had information about the whereabouts and family circumstances of various members of the police, court staff etc.

- It was reviewed that Mr Kirk has a criminal history - mostly minor offences. Does not have a criminal history which includes previous use of firearms. Five offences against the person dating from 1978 to 1999 as well as four public order offences.

- The meeting was informed that in recent discussions with the CPS, it has been clarified that several of Mr Kirk's recent actions do not constitute an offence. Even his approach to the Chief Constable could be seen as his right to request an interview with her, necessary for the procedure of his civil court case.

- It was discussed that Mr Kirk has recently offered to sell a machine gun for £4000 on his website. Not known whether he is actually in possession of the machine gun. Has referred to

it as "she " and "her " on his website etc.

- At the meeting, it was reviewed that the police intend to take certain action which they anticipate will result in a remand into custody.

FIRST MEETING WITH MAURICE KIRK 17.08-09

After liaising with nursing staff, I met with Maurice Kirk together with an escorting member of nursing staff. I shook hands with Mr Kirk and asked if he would be prepared to meet with me. He put his cigarette out and suggested that we go to another room where there is no smoke. I thanked him for his consideration. I informed that I hoped to introduce myself and explain my role in the team and that I also had information to pass on to him.

Mr Kirk instructed me to continue whilst making note of my name and time of the talk etc. At one point, when I said that I found his method of communicating offensive, he apologised if I found it so. I asked him why it was necessary to make explicit notes of my name etc and he responded that it was necessary to keep a record of everything that happens as he is being detained illegally - both in prison and at the Clinic. I suggested that it would be helpful to hear his own story that has led to his detention in a medium secure unit. Also reflected that, up until now, he has met with team members who are considering medical model as it applies to him and his circumstances. Informed that social work is informed by other models.

Mr Kirk made it clear that he wished to discontinue the conversation. Informed him of telephone call from an Environmental Health Officer who would wish the opportunity to discuss some problems with him regarding one of his rented properties (leaking roof). Mr Kirk informed that

3 (12)

this was if no interest/concern to him in his current situation, that he was only concerned with his own predicament and with his family. He continued that he had no concern for the tenant (presumably) as the tenant was living off the state etc.

He declined to take the contact details from EHO stating that he couldn't telephone her and she would have to contact him. On checking with nursing staff, I was informed that Mr Kirk has 15 minutes access to the telephone per day (to phone out). Mr Kirk implied that he had other and more important business to attend to.

SECOND MEETING WITH MAURICE KIRK 19.08.09

I met with Maurice together with nursing escort to discuss with him, if possible, the remarks that he made in CTM yesterday (18.08.09) regarding family difficulties. In particular, the distress of both his wife and youngest daughter. I wanted to explain the need to gather information from a variety of sources to be able to make an informed assessment of mental state/behaviour.

Although interspersed with various preoccupations about past and current injustices and likely conspiracy between agencies that explain past and current situation, Maurice appeared thoughtful about my suggestion that I meet with Kirsty Kirk. He informed that he would contact her and

put it to her that it may be helpful to meet with me. He informed that she is suspicious and reluctant to involve herself and that, despite his intervention, she remains unlikely to agree to meet with me. We talked about various interpretations that could be put on his communications currently.

Maurice Kirk v Dr Tegwyn Williams re Bus Fares Claim

Dear Madam,

Further to our, possibly, constructive conversation this morning, I enclose one of two flyers to which I referred.

I requested your help to have my psychiatric reports, by Dr Tegwyn Williams, corrected as they are seriously affecting other ongoing litigation with third parties referring to them.

The chances of renewing my pilot's licences are also at serious risk.

I enclose the letter, I mentioned, referring to my complaint by way of a Judicial Review Application on the continuing conduct of HM Court Service in South Wales.

Maurice Kirk v Dr Tegwyn Williams re Falsified Medical Records

Without Prejudice

Dear Madam,

1. The South Wales Authorities conspired to falsify about one hundred and forty criminal allegations of which only around twelve were successful in your Welsh courts.
2. In 1992 I instructed English lawyers to sue for damages for the continuing police bullying, malicious prosecutions and false imprisonments.
3. Using these prosecutions the South Wales Authorities further conspired and succeeded in having my name removed from the veterinary register for life.
4. Police bullying then stopped, significantly, for almost ten years.
5. But in 2009 the Chief Constable's false' affidavit caused the South Wales Authorities, under 'Operation Chalice', to again conspire and have me remanded for nearly eight months on the ridiculous pretext of my being in breach of the 1968 Fire Arms Act for being in the possession, a year earlier, of a decommissioned WW1 antique aircraft machine gun!
6. A conviction was never intended as the South Wales Authorities were reliant on 'Operation Orchid' and clandestine MAPPAs to have me either shot or jailed, without trial, using false psychiatric reports by your rogue NHS psychiatrist, Dr Tegwyn Williams, immune to prosecution within the Principality.
7. The 'due process' of law, in South Wales, is lamentable and clearly corrupt causing many to consider alternative methods of retribution.

Yours sincerely,

Maurice J Kirk BVSc
